

Professional Summary

Results-driven UI/UX Designer with expertise in creating intuitive and visually appealing digital experiences. Proficient in user-centered design, research, wireframing, prototyping, and usability testing. Skilled in tools like Figma, Adobe XD, and Miro, with a strong ability to collaborate across teams and deliver solutions that enhance user satisfaction. Passionate about leveraging design to solve complex problems and optimize workflows.

Work Experience

BASS Software Company

Jun 2024 – Oct 2024

UI/UX Intern

- Designed interactive prototypes and wireframes for mobile and web platforms.
- Collaborated with developers to ensure design feasibility, improving workflow efficiency.
- Created a design system that ensured consistency and reduced design time.
- Contributed to a comprehensive project for lawyers, including apps and platforms for lawyers, clients, and admin panels.

Projects

E-Commerce Web Application (ShopMart)

Feb 2026 – May 2026

Next.js | React | Tailwind CSS | RESTful APIs | GitHub

- Built a responsive e-commerce web app using Next.js (App Router) and Tailwind CSS.
- Implemented dynamic product catalog browsing and dynamic Product Details (/products/[id]) via REST APIs.
- Developed core features: Cart, Wishlist, and Authentication (Login, Register).
- Designed mobile-friendly UI components with clean UX and interactive toasts.
- Managed version control and remote deployment tracking using Git & GitHub.

B.Basata (food delivery app)

Oct 2024 – Dec 2024

UI UX Design

Behance Link

- Conducted user research to identify target audience needs and pain points.
- Designed user journeys and user flows to support smooth ordering and tracking.
- Created low-fidelity wireframes and high-fidelity visual designs using Figma.
- Developed an interactive prototype showcasing core features and screens.

Avocado Platform (lawyer & client app and website with admin panel)

Jul 2024 – Oct 2024

UI UX Design

Behance Link

- Designed and developed the full user experience for both the app and website.
- Created intuitive interfaces to streamline lawyer-client communication.
- Built a user-friendly admin dashboard to simplify management tasks.
- Focused on usability, accessibility, and consistent design across all platforms.

Education

Bachelor's in Computers and Artificial Intelligence – Medical Informatics Benha University GPA: 3.26
Graduation Project (Diabetes Care System - UI UX Design) : - A

2019– 2023

Skills
